

The DPAS family...are you part of it?

DPAS is more than a dental plan provider; it's a family. A family of experts, a family of dentists and a family of products. We like to believe we're different in offering a professional service at a competitive rate, whilst maintaining a friendly and cooperative relationship with your practice.

your dental plans

Your practice. Your patients. Your choice.

We have set-up and run dental plans, with supplementary insurance, for over 1,200 dentists from over 550 dental practices nationwide. Our competitively priced service attracts many practices from other dental plan providers and we use our expertise and experience to facilitate these transfers.

Key members of the DPAS team were instrumental in developing the original concept of conversion from the NHS to independence and DPAS has continued to help dental practices with this transition.

Visit us at stand G17 at the 2009 BDTA Dental Showcase in Birmingham, 12th-14th November, to meet the DPAS family and find out what we can do for your practice. There will also be a chance to win a weekend to Paris.

Visit www.dpas.co.uk to listen to regular Podcasts, join our Facebook or Twitter groups, find seminar details and meet the team.
