

DPAS Link up with Smilescool

DPAS are delighted to announce that they have teamed up with smilescool to administer payment plans for the pioneering child focused dental company.

Smilescool is the brainchild of practising dentist Michael Reece and is designed to provide an innovative and proven prevention based approach to children's dental care.

The smilescool programme offers a holistic dental care package for children between the ages of 0 and 11. Within a carefully timetabled operational delivery schedule, smilescool 'pupils' have the opportunity to participate in 3 scheduled visits to the dentist, the hygienist / therapist and the dental health educator per annum - far exceeding parental expectations of existing private dental care.

The association with DPAS gives smilescool the opportunity to provide their franchise operators with a cost effective and efficient means of introducing the smilescool concept into their practice. DPAS offer numerous additional benefits to their customers, such as the interactive children's website, www.gr8smileclub.com, as well as the DPAS marketing toolbox.

You can catch up with everything new at DPAS by visiting www.dpas.co.uk or by following them on Facebook, Twitter and iTunes. (To subscribe via iTunes simply search for DPAS in the Podcast section of the iTunes store). Tel : 01747 870910.
