

Make 2010 a “Super” Seminar Year

The success of DPAS’s Further Growing Your Practice “super” seminars are further proof that many dental professionals are looking for advice and guidance on transforming their practices into more profitable businesses.

your dental plans

Your practice. Your patients. Your choice.

With practice branded payment plan solutions at the heart of their philosophy, DPAS’s Further Growing Your Practice “super” seminars bring together four leading-industry experts, offering valuable advice on many aspects of running a successful private or mixed practice. In this series, Ashley Latter, Sheila Scott, Hayley Bloodworth and Kevin Coyle, each deliver a programme of engaging and informative presentations covering a variety of topics that focus on attracting and retaining patients, with the overall aim of increasing practice profitability.

A delegate at the Bristol Seminar held in September 2009 gave the day fulsome praise; “We have been looking to expand our practice for some time, but just needed the extra confidence, to do so. After today, I think it’s safe to say we will be making some changes in our practice for the better.”

Further Growing Your Practice seminars are taking place at the following locations in 2010.

- 26th February Brighton Dome
- 12th March Concorde Conference Centre, Manchester
- 26th March NUFC, St James’ Park, Newcastle

You can get a taste of what’s on offer at the next Further Growing Your Practice Seminar by tuning into the FYGP podcast, available on iTunes, Twitter, Facebook or at the DPAS website.
