

'Running the Ultimate Private Practice' seminars

- Do you already have a plan provider who isn't offering you value for money?
- Do you have an NHS practice and are considering independence in these times of uncertainty?
- Do you have a largely 'fee-per-item' practice in which you would like to introduce plans to safeguard your income?

If you can answer yes to any of the above questions, then we strongly advise that you attend one of the free 'Running the Ultimate Private Practice' seminars taking place across the U.K. in 2010.

In these times of economic uncertainty many dental practices are having to re-evaluate their finances and seriously consider what is best for the future of their business. DPAS offer an extremely cost-effective solution to all of the issues outlined above, practice-branding all plans to ensure that it is the practice, and not the plan provider, that is being promoted to the patients.

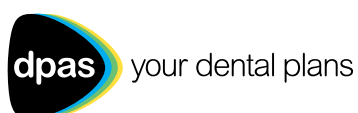

Following a drinks reception, evening presentations covering issues such as marketing and finance will take place between 19.00-20.30, after which time a meal will be served. We look forward to seeing you at one of the venues listed.
