

## What's Your "Action Plan" for 2010-2011?

If you're looking for ways to increase your practice's revenues without raising your prices, did you know that with 1,000 patients on payment plans you could save as much as £10,000 per year by changing your plan provider to DPAS?

Facing the need for change in your practice may seem like an impossible mission, but DPAS has the knowledge, experience and tools at hand to make the implementation of practice-branded dental plans as seamless as possible. DPAS are the ideal partner for saving you valuable resources by switching plan providers, bringing more stability to your fee per item practice or offering NHS practices more independence in these times of uncertainty.

Your mission begins with a free seminar being held from 1830 hours at one of the following locations, where presentations from leading industry speakers, including Andy McDougall from Spot On Business Planning and DPAS's Andrew Warren and Janice Charlton, will cover topics ranging from business planning and payment plans to boosting patient numbers. You will also be rewarded with a dinner and the opportunity to network with like-minded professionals before completing your mission at 2200 hours.

- Cardiff 30<sup>th</sup> Sep 2010
- Leeds 11<sup>th</sup> Nov 2010
- Glasgow 27<sup>th</sup> Jan 2011
- Bournemouth 17<sup>th</sup> Feb 2011
